

Load Data from Chinook to Chinook DW

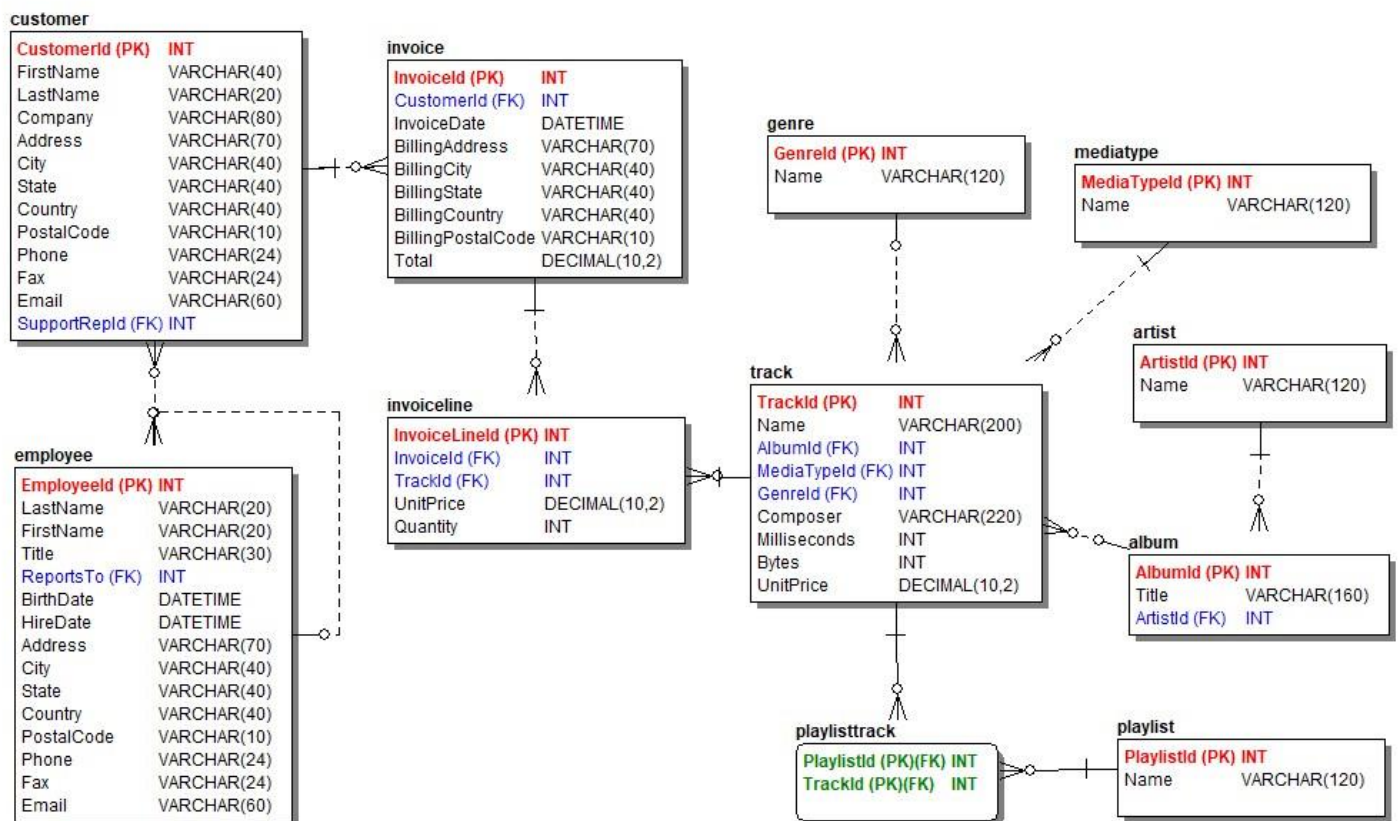

Assignment

- Using the ER model as the system of record (SOR) load data into the dimensional model as the Data Warehouse (DW)
- Data Integration tool: Alteryx
- SOR provided in earlier assignments
 - Use either MySQL or SQL Server as source dbms
- DW created in earlier assignment. SQL Script(s) provided on OneDrive
 - Use either MySQL or SQL Server as DW dbms

Deliverable

- Upload the completed Alteryx worksheets (.yxmd)
- Get table count for the DW tables & upload the results
- Query top 20 rows by SalesAmount from Fact_Sales and upload results
